

Port-Skid

A portable ALL in ONE skid that will make your chemical injection easier and safer than ever.

P - SERIES

Our P Series chemical injection skids feature an all stainless steel pneumatic pump for low to medium pressures with different flow rates.

Features and Benefits:

- Compact, light and portable
- All in one skid that will allow to inject chemicals with a clean and safe operation.
- Quick and easy field installation. Just hook up the suction line from the tank and the discharge line to the process and is ready to go.
- Reduces considerably the risk of chemical spills protecting both the operator and the environment from the effects of harsh chemicals.
- Easy installation, operation and maintenance
- Our PORT-SKID systems include all the necessary components for the correct calibration of the pump as well as the safe operation of the system.

Includes a Python Series plunger type pump from GRACO[®], with the following great features:

- Ease of Serviceability: Easy access to the plunger and packing making its maintenance very fast and simple.
- Adjustable fluid packing that lasts up to 25 times longer than non-adjustable ones.
- CE Approved
- Pump cycle remains constant regardless of the system backpressure.

*GRACO[®] is a registered trademark of GRACO Inc.

Components:

- 1 All stainless steel 304 structure
- 2 All stainless steel 316 suction line
- 3 All stainless steel 316 discharge line
- 4 Calibration cylinder - 316SS wetted parts
- 5 Stainless steel pressure gauge
- 6 Y strainer and purge
- 7 Relief valve
- 8 Gas filter regulator
- 9 Chemical injection pump

Dimensions:

- A: 21 - 1/4" C: 14 - 3/4"
 B: 10" D: 21"

How to Order:
